????

????? Asterisk PBX ???????? SIP Trunk ?????????????????? Asterisk ? from-internal ??????? SIP Trunk ??? ?????????????????????? Blacklist ?????????

?????

- FreePBX Distro
- FreePBX 2.10.0.8
- Asterisk 1.8.10
- CentOS 5.7

????

?? /etc/asterisk/extensions_custom.conf??????

```
; Below are used for blocking DID with Blacklist
;
[my-from-internal-block-did]
exten => _X.,1,Set(DID_NUM=${EXTEN})
exten => _X.,n,GotoIf($["${DB_EXISTS(blacklist/${DID_NUM})}" = "1"]?blacklisted)
exten => _X.,n,Noop(=== Passing the call to from-internal ===)
exten => _X.,n,Goto(from-internal,${EXTEN},1)
exten => _X.,n(blacklisted),Noop(=== The destination number ${DID_NUM} is blocked by Blacklist ===)
exten => _X.,n,Hangup(42) ;42 is causecode, which will return 503 response code
exten => h,1,Hangup
```

??????????? SIP Trunk ?

```
...
context=my-from-internal-block-did
...
```

TIPs?

> Hangup(42) ???????????? 503 ???(Service Unavailable)???????? Asterisk??????????
>
> -- Got SIP response 503 "Service Unavailable" back from 210.202.244.130
> -- SIP/ccnet-00000101 is circuit-busy
