Dial Rules

List of DialPlans: [New](#) [Delete](#)

List of Dial Rules: [Add a Dial Rule](#)

S.No	RuleName	Dial Pattern	Call Using	Options
1	Call_PSTN	Begins with 9 and followed by more than 3 digits	Ports 1,2,3,4,5,6	Edit Delete
2	iptel-011	Begins with 011 and followed by more than 0 digits	Custom - iptel	Edit Delete

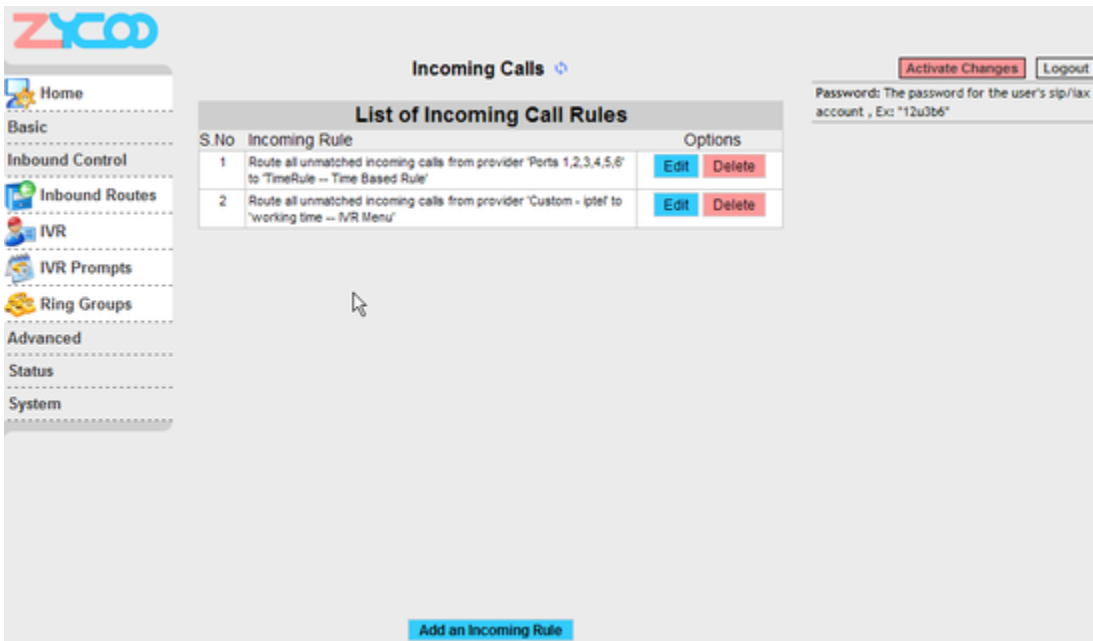

The screenshot shows the ZYCO web interface for configuring trunks. The left sidebar contains navigation options: Home, Basic, Extensions, Trunks, Outbound Routes, Inbound Control, Advanced, Status, and System. The main content area is titled "Trunk" and displays a table with the following data:

S.No	Trunk	Type	Option
1	Ports 1,2,3,4,5,6	Analog	Options ▾
2	Custom - iptel	Custom VoIP	Options ▾

Below the table is a blue button labeled "Add a Trunk". In the top right corner, there are "Activate Changes" and "Logout" buttons, and a password field with the text: "Password: The password for the user's sip/lax account , Ex: '12u3b6'".

Inbound Control

The screenshot shows the ZYCO web interface for configuring incoming call rules. The left sidebar contains navigation options: Home, Basic, Inbound Control, Inbound Routes, IVR, IVR Prompts, Ring Groups, Advanced, Status, and System. The main content area is titled "Incoming Calls" and displays a table with the following data:

S.No	Incoming Rule	Options
1	Route all unmatched incoming calls from provider 'Ports 1,2,3,4,5,6' to 'TimeRule -- Time Based Rule'	Edit Delete
2	Route all unmatched incoming calls from provider 'Custom - iptel' to 'working time -- IVR Menu'	Edit Delete

Below the table is a blue button labeled "Add an Incoming Rule". In the top right corner, there are "Activate Changes" and "Logout" buttons, and a password field with the text: "Password: The password for the user's sip/lax account , Ex: '12u3b6'".
