FAQ

Q: ??????????????????

A: ????????????

```
# chkconfig iptables off
# chkconfig ip6tables off
```

```
# service iptables stop  
# service ip6tables stop  
# vi /etc/selinux/config
```

SELINUX=disabled

```
# setenforce 0
```

Q: ???????Timezone for PHP is not set. Please set "date.timezone" option in php.ini.

A:

```
# vi /etc/php.ini
```

date.timezone = Asia/Taipei

```
# service zabbix_server stop  
# service httpd stop  
# service mysqld stop  
# service mysqld start  
# service httpd start  
# service zabbix_server start
```

Q:
