

Request :: P00037650

Unfortunately, the MegaRAID controllers and SAS HBAs do not currently support this feature. There is discussion of future enhancements with a feature set such as this but nothing concrete. I will see if I can find out more information. However, the LSI 3ware controllers do offer a feature that is similar, but not exact, called RapidRAID Recovery.

Background Task (Controller ID 0)

	Task Rate					Mode	
	5	4	3	2	1		
Rebuild/Migrate	Fastest Rebuild	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	Fastest I/O	<input checked="" type="radio"/> Adaptive <input type="radio"/> Low Latency
Verify	Fastest Verify	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	Fastest I/O	<input type="radio"/> Adaptive <input checked="" type="radio"/> Low Latency

Unit Policies (Controller ID 0)

	Write Cache	Read Cache	Auto Verify	Overwrite ECC	Queuing	StorSave	Rapid RAID Recovery
Unit 0 [RAID 5]	<input checked="" type="checkbox"/>	Intelligent	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Balance	All
Unit 1 [SINGLE DISK]	<input checked="" type="checkbox"/>	Intelligent	<input checked="" type="checkbox"/>	--	<input checked="" type="checkbox"/>	Protection	--

Unit Names (Controller ID 0)

Unit 0 [RAID 5]	<input type="text"/>
Unit 1 [SINGLE DISK]	Single
<input type="button" value="Save Names"/> <input type="button" value="Reset Names"/>	

Other Controller Settings (Controller ID 0)

Auto Rebuild	<input checked="" type="radio"/> Enabled <input type="radio"/> Disabled
Auto-Carving	<input type="radio"/> Enabled <input checked="" type="radio"/> Disabled
Carve Size (GB):	<input type="text" value="2048"/> <input type="button" value="Submit"/>
Number of Drives per Spin-up	1
Delay between Spin-up	1 second(s)
Export Unconfigured Disk	N/A
