**voicemail.conf?**

[general]

...

...

sendvoicemail=yes ; Allow the user to compose and send a voicemail while inside  
 ; VoiceMailMain() [option 5 from mailbox's advanced menu].  
 ; If set to 'no', option 5 will not be listed.

searchcontexts=yes ; Current default behavior is to search only the default context  
 ; if one is not specified. The older behavior was to search all contexts.
