

????  
???? Asterisk PBX ??????? SIP Trunk ????????????????? Asterisk ? from-internal ????? SIP Trunk ???  
???????????????????????????????????? Blacklist ?????????

????

- FreePBX Distro
- FreePBX 2.10.0.8
- Asterisk 1.8.10
- CentOS 5.7

????

?? /etc/asterisk/extensions\_custom.conf??????

; Below are used for blocking DID with Blacklist

```

;
[my-from-internal-block-did]
exten => _X.,1,Set(DID_NUM=${EXTEN})
exten => _X.,n,GotoIf("${DB_EXISTS(blacklist/${DID_NUM})" = "1"?blacklisted)
exten => _X.,n,Noop(=== Passing the call to from-internal ===)
exten => _X.,n,Goto(from-internal,${EXTEN},1)
exten => _X.,n(blacklisted),Noop(=== The destination number ${DID_NUM} is blocked by Blacklist ===)
exten => _X.,n,Hangup(42) ;42 is causecode, which will return 503 response code
exten => h,1,Hangup

```

???????????? SIP Trunk ?

...

TIPs?

Hangup(42) ????????????? 503 ???(Service Unavailable)???????? Asterisk????????????

- Got SIP response 503 "Service Unavailable" back from 210.202.244.130
- SIP/ccnet-00000101 is circuit-busy
