

**For physical disks**

File: check\_netapp.pl

```
cd /usr/lib64/nagios/plugins  
perl check_netapp.pl -c public <NetApp-IP>
```

**For CPU utilization**

File: check-netapp-ng.pl

NOTE: To modify the line 2 as what you need

```
use lib "/path/to/nagios/libexec"
```

```
cd /usr/lib64/nagios/plugins  
./check-netapp-ng.pl -H <NetApp-IP> -T CPULOAD -w 80 -c 90 -C public
```
