?? FreePBX

service asterisk stop
./start_asterisk start
./install_amp --installdb --username=asteriskuser --password=${ASTERISK_DB_PW}

Checking if Asterisk is running..running with PID: 4228..OK
Checking for /etc/amportal.conf../etc/amportal.conf does not exist, copying default
Creating new /etc/amportal.conf
Enter your USERNAME to connect to the 'asterisk' database:
 [asteriskuser]
Enter your PASSWORD to connect to the 'asterisk' database:
 [amp321]
Enter the hostname of the 'asterisk' database:
 [localhost]
Enter a USERNAME to connect to the Asterisk Manager interface:
 [admin]   <?? AMI ???? Enter>
Enter a PASSWORD to connect to the Asterisk Manager interface:
 [amp111]   <?? AMI ???? Enter>
Enter the path to use for your AMP web root:
 [/var/www/html] <? Enter>

Created /var/www/html
Enter the IP ADDRESS or hostname used to access the AMP web-admin:
 [192.168.1.1] 192.168.31.170 <???? IP>
Use simple Extensions [extensions] admin or separate Devices and Users [deviceanduser]?
 [extensions]
Enter directory in which to store AMP executable scripts:
 [/var/lib/asterisk/bin]
...
<? Enter>
Installing new FreePBX files../etc/asterisk/queues.conf has been changed from the original version.
Overwrite (y=yes/a=all/n=no/d=diff/s=shell/x=exit)?y
...
<?? y >
