

????

- Incredible PBX (PBXInFlash)
- FreePBX Distro (????????????????)

????

- sendmail ? postfix
- Lame
- ??????????

??

Step 1. Log into your server as root and...

```
cd /usr/src
wget http://pbxinaflash.com/sendmailmp3.tar.gz
tar xzf sendmailmp3.tar.gz -C /var/lib/asterisk/bin/
chown asterisk:asterisk /var/lib/asterisk/bin/sendmailmp3
chmod 0755 /var/lib/asterisk/bin/sendmailmp3
```

Step 2. In FreePBX, choose Settings -> Voicemail Admin -> Settings, make the following changes, then click Submit and Reload FreePBX.

```
attach -> yes
format -> wav|wav49
mailcmd -> /var/lib/asterisk/bin/sendmailmp3
```

Step 3. Leave yourself a voicemail and be sure it is delivered in MP3 format.
