

Q: /boot filled up with old kernels that you'll probably never need.

A: <https://www.linuxjournal.com/content...aring-out-boot>

```
sudo dpkg --purge $(dpkg --get-architecture | grep -v \
$(uname -r) | grep ii | awk '{ print $2 }')
```

Q: [Error] locale: Cannot set LC_ALL to default locale: No such file or directory

A?

```
#> locale
```

```
locale: Cannot set LC_ALL to default locale: No such file or directory
```

```
#> export LC_ALL="en_US.UTF-8"
```

```
#> vi ~/.profile
```

```
export LC_ALL="en_US.UTF-8"
```

```
???????-bash: warning: setlocale: LC_ALL: cannot change locale (zh_TW.UTF-8)
```

```
????????? locale -a
```
