

Automation Tools

With SSH

- [Fabric](#) is a high level Python (2.7, 3.4+) library designed to execute shell commands remotely over SSH, yielding useful Python objects in return. (?????????????)
 - [Fabric - Run Shell Commands Remotely Over SSH in Linux \(tecmint.com\)](#)
- sshpass (??? SHELL ????????)
 - [ssh | BookOSSLab](#)
 - [sshpass - Login to ssh server with a password using a shell script - nixCraft \(cyberciti.biz\)](#)
