

Q & A

0516-1398 extendvg

“ 0516-1398 extendvg: The physical volume hdisk1, appears to belong to another volume group. Use the force option to add this physical volume to a volume group.

Solution:

```
extendvg -f rootvg hdisk1
```

File too large

“ ./H11072988.iso: File too large

Solution:

Edit: `/etc/security/limits`

```
root:
    fsize = -1
```

Re-login then run the command

```
ulimit -a
```
