

Ubuntu Pro

Ubuntu Pro is a set of features that you can enable for your Ubuntu system. Here is a list of what Ubuntu Pro includes:

- Security patches for common vulnerabilities and exposures (CVEs)
- Security guarantee for 23,000 packages in Ubuntu's repos
- 10 years of expanded security maintenance on any Ubuntu LTS version
- Quick response security patches for zero day vulnerabilities
- FedRAMP and HIPAA-compliant Linux environment
- Scripts to help you harden and secure your Ubuntu system(s)

This is a subscription based service, and you can view the pricing plans on the [Ubuntu Pro pricing plans](#) page. Ubuntu Pro is also free for personal use if you are a contributing member to the Ubuntu community. This means your collaboration with Ubuntu has been recognized for your continuous contributions. More info at: [Ubuntu community membership](#).
